Product

Perfect Line Dust Control is a silicone-free, water-based liquid that can be applied by means of a pressure sprayer and is only suitable for usage on the floor. Perfect Line Dust Control makes dirt and spray dust stick to the surface, so that it stays low to the ground and no longer swirls around. This keeps the spray booth clean and like new. Perfect Line Dust Control is completely biologically degradable and therefore harmless to the environment.

Article number(s)

PL.DC.5 (= 5L can)

Physical and chemical product characteristics

Packaging	:	5L can
Appearance	:	Liquid
Color	:	Transparent after use
Temperature resistance	:	80° C
Spray capacity	:	50 m ² per litre
Durability	:	12 months
Storage	:	Store in a dry and frost-free place

Disclaimer

This TDS is leading. All other products referred to in this Technical Data Sheet are from Perfect Line. System properties will not be valid if the material in question is used in combination with other materials or additives that do not belong to Perfect Line, unless explicitly stated otherwise. This product information has been carefully selected and compiled by us and is based on current knowledge and tailored to normal operating conditions. If deviating circumstances occur (with regard to application, pre-treatment or influences from the environment), then our representatives are happy to give advice in order to obtain the most favourable application of our products. Only for professional use. The information is non-binding and we accept no liability for its accuracy and completeness. We reserve the right to update, modify and supplement the contents of these data at any time without prior notice and without obligation. These terms and conditions apply indefinitely to all changes and modifications. Safety data sheets and warnings on the product labels must be observed.
