---

### Product

This degreaser has been developed for the removal of heavy dirt. Use this product during the preparation (= cleaning of a surface). After thorough cleaning, the surface is also easier to sand. Fat and wax are the greatest enemies of coat. They hinder adhesion and/or disrupt the way the coat flows (craters). Therefore, before sanding and coating, the surface should be thoroughly cleaned.

---

### Item number(s)

PL.M600.5 (= 5L tin)  
PL.M600.1 (= 1L tin)

---

### Physical and chemical product properties

<b>Packaging</b>	: 1L and 5L tin
<b>Appearance</b>	: Liquid
<b>Colour</b>	: Transparent
<b>Flash point</b>	: < 23°C
<b>Density</b>	: 0.76 kg/litre
<b>VOC value</b>	: 760 g/litre
<b>Shelf life</b>	: A maximum of 3 years if the packaging is unopened.

---

### Processing method

Apply the degreaser (undiluted) generously to a soft, lint-free cloth and rub dry with a clean cloth.

---
